Objective: Enthusiastic about harnessing AI/ML and web technologies to develop innovative, user-centric applications and contribute meaningful advancements to the tech industry.

INTERNSHIPS AND PROFESSIONAL TRAININGS

Simplify3x – Software Engineer Intern

Bengaluru
Jan 2025 - Present

- Working on software development project as part of the internship.
- Gaining hands-on experience in industry-level coding, problem-solving.

TNS India Foundation – Java Full Stack Development

Bengaluru
June 2024 - Dec 2024

- Learning concepts of Core Java
- Java Full Stack development
- Soft Skills

Varcons Technologies Pvt Ltd - Machine Learning Intern with Python (Research based)

Bengaluru
Oct 2023 - Nov 2023

- Experienced in developing Python-based ML models for chronic disease risk prediction.
- Proficient in data preprocessing, model training, and evaluation for predictive analytics.
- Skilled in collaborative, solution-driven work environments.

EDUCATION

Don Bosco Institute Of Technology

Bachelor of Engineering in CSE (AI & ML)

Bengaluru
2021 - Present
9.14 CGPA

PROJECTS

- **Shopping Mall Management System** Sept 2024 – Nov 2024
Implemented with Java, utilizing Spring Boot for the backend and React for the frontend.
- **Nexus Chat** Jun2024 – Aug 2024
Created a chat application using the MERN stack.
- **Number Plate Detection** Dec 2023 – Jan2024
Developed a detection system for automobiles using Support Vector Machines (SVM) with feature extraction from images.
- **Social Media Sentiment Analysis** Oct 2023 – Nov 2023
Processed and analyzed 30,000 posts with NLP techniques, Multinomial Naive Bayes
- **Chronic Disease Risk Prediction** Oct 2023 – Nov 2023
Implemented machine learning algorithms using Gradient Boosting.

Mahesh PU College

Pre – University
PCMCs

Bengaluru
Jul-2021
92 %

New Horizon Public School

Karnataka Secondary Education Examination Board (KSEEB)

Bengaluru
May-2019
82 %

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python, SQL, HTML5, CSS3, MERN Stack

Packages & Operating Environment familiarity: Windows, Ubuntu, VS Code, MySQL, Oracle, Git and Github, SpringBoot, MS Office, Firebase, Google Colab.

ADDITIONAL INFORMATION

- Developed a Flappy Bird-style game in Unity.
- Strong communication abilities for effective teamwork.
